

LENOX®

Custom-Made BANDSAW BLADES

**Your Specifications,
Our Experience!**

Ziegler Tools is committed to bringing you the best in quality. That's why our custom made blades are cut from name brand stock and welded by a 27-year veteran.

Choose from Bi-metal or Carbon steel, in widths from 3/16 to 1-1/4 inches.

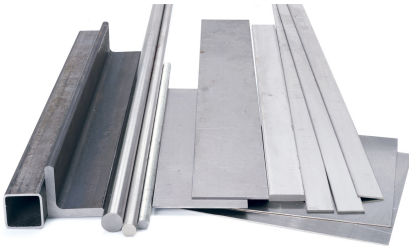

A large selection of blade types and tooth shapes are available. Getting the most efficient performance from your band saw machine requires the proper blade. **Let Ziegler Tools be your saw specialist.**

Custom-made blades can be stocked for large quantity users.
